

LANDA[®]
PRESSURE WASHERS

Since 1969

North America's **LARGEST** Manufacturer of
Industrial **PRESSURE WASHERS**

SUV

*Compact, Entry-Level, Gasoline-Powered,
Diesel-Heated, Hot Water Pressure Washer*

- Up to 2.7 GPM, 2400 PSI
- Robin 6 / 7 HP Engine with New Technology
- NO Battery Needed
- Direct-Drive Pump
- Sch. 80 Heating Coil

INTRODUCING A TECHNOLOGICAL BREAKTHROUGH

COMPACT, ECONOMICAL & NEEDS NO BATTERY

The SUV combines the new technology of Robin-Subaru engine, with its 200W integrated alternator, and LANDA's proprietary Super-Duty Regulator to generate a constant supply of 12V DC power for all of the SUV's electrical functions without the need for a battery. This technological advancement has produced a super-compact, economical and high-performance gasoline-powered hot water pressure washer for on-site cleaning.

Shown with optional hose reel

■ **Rugged 10-gauge steel Chassis** protected with weather-resistant epoxy powder coat finish.

■ **Heavy-duty, tri-plex High-Pressure Pump** on 7 HP model has a forged brass head and a five-year limited warranty; axial pump on 6 HP model has 1-year warranty.

■ **Top-of-the-line 12V DC Burner** uses new high-tech engineering for better fuel efficiency and low maintenance.

■ **Rust-free, 6 gal. Fuel Tank** with elevated fuel line to prevent dirt and debris from reaching burner.

■ **Four 13-inch, two-ply, tubed, Pneumatic Tires** for easy maneuvering and **Wheel Brake** for added stability and safety.

■ **Many Safety Features**, including a rupture disk and thermal pump protector to prevent build up of excess pressures or heat.

■ **Durable Heating Coil** made of leak-free, cold-rolled, Schedule 80 steel pipe with five-year warranty.

■ **Rugged Roll Cage**, a single, welded frame made of 1" square steel tubing, provides solid protection to valuable components and yet it's **Narrow** enough for standard doorways.

■ **Helpful Tri-Lingual Labels** with operating instructions for owner and operator protection.

■ **50 ft. of steel-wire braid High Pressure Hose** with 24-inch guard for burst protection.

NO BATTERY NEEDED

7 HP MODEL

■ **Easy-reach Control Panel** has **Adjustable Thermostat, Hour Meter, and Tachometer** with digital display that flashes a reminder when maintenance is due.

■ **Technologically advanced Robin-Subaru Engine** has Overhead Cam design for more efficient, cooler and quieter operation; also the engine is mounted on **Vibration Isolators** for less wear and longer life.

SUV3-24121

■ **Insulated, fatigue-free Trigger Gun** and chrome-plated, dual-lance **Variable Pressure Wand** for adjusting of the pressure while cleaning.

■ **Four quick-couple Nozzles** are made of hardened stainless steel and mounted for ready access.

■ **Easy-to-attach Detergent Injector** for applying soap while washing simply by twisting the handle on the wand.

WHY CHOOSE LANDA's SUV

There's never been an entry-level, gasoline-powered, hot water pressure washer so compact and yet so reliable as LANDA's new SUV.

The SUV is made possible by the technologically advanced Robin-Subaru engine being matched with a LANDA proprietary Super-Duty Regulator (SDR) to create an extremely versatile medium-duty, hot water pressure washer that operates completely without a battery or magneto system.

The Robin-Subaru engine, with its revolutionary new integrated 200W alternator, linked to LANDA's extra-large SDR unit, is capable of supplying enough power for all of the SUV's electrical functions, including its high-efficiency burner assembly. This eliminates the need for either a battery or for belts and pulleys used in complex magneto systems.

The SUV is also poised to become the No. 1 entry-level hot water pressure washer on the market for other reasons:

■ **Built to Last:** Components are proven and backed by LANDA's high-end warranty. Everything from the 1-inch square steel tube frame and Schedule 80 heating coil to the vibration isolators on the engine makes it built to last.

■ **Safe to Use:** Besides its ETL certification to the rigid UL-1776 safety standards, the SUV has many safety features, including anti-siphon mechanism, adjustable thermostat, rupture disk, wheel brake, 24-inch hose guard and tri-lingual warning labels.

■ **Easy to Operate:** The SUV is an operator's dream with variable pressure wand, downstream detergent injection, quick-couple nozzles, adjustable thermostat and a digital display for the tachometer, hour meter and even service reminder.

SUV3-24121
Shown with optional stainless steel coil wrap, it stands only 39-inches high and weighs just 283 lbs!

THE SUV IS IDEAL FOR CLEANING...

- School Facilities
- Dumpsters
- Kitchen Hood, Vents
- Medical Facilities
- Light Equipment
- Food Carts
- Deck Furniture
- Awnings
- Storage Racks
- Unloading Dock
- Small Boats
- Wheel Chairs
